Instagram Quiz Traffic — Video Content Plan
7 Reels to Drive 'Comment QUIZ' Traffic to the Gut Pattern Quiz

THE STRATEGY

Every video follows the same structure: a hook that speaks directly to a symptom or frustration, a reframe that makes the viewer think differently, and one CTA. Alina ends every video by saying:

"Comment QUIZ below and I'll send you the free Gut Pattern Quiz."

ManyChat picks up every 'quiz' comment and sends the quiz link automatically via DM. The content rotates across avatars so every woman sees at least one video that feels written for her.

VIDEO 1 — The Labs Are Normal Video

Avatar: Avatar 1 (Dismissed Patient), Avatar 6
(Post-Menopausal)

Pillar: Validation

HOOK (first 3 seconds)

"If a doctor has ever told you your labs look fine but you feel absolutely terrible, this is for you."

TALKING POINTS

- Standard labs don't test for gut function, stomach acid, or microbial balance.
- You can have a completely 'normal' blood panel and still have a gut pattern driving all your symptoms.
- That's not in your head. The tests just aren't looking at the right things.
- There are 5 gut patterns I see over and over in women who've been told everything is fine.

CALL TO ACTION

Comment QUIZ below and I'll send you a free 2-minute quiz that tells you which pattern fits you. The results might finally put a name to what you've been feeling.

CAPTION

"Your labs are normal" doesn't mean you're fine.

It means the right things weren't tested.

Comment QUIZ and I'll send you the free Gut Pattern Quiz.

VIDEO 2 — The 5 Gut Patterns Video

Avatar: All avatars (broad awareness, highest quiz driver)

Pillar: Education + Quiz Drive

HOOK (first 3 seconds)

"After working with hundreds of women, I keep seeing the same five gut patterns come up. Most women have one dominant one and don't know it."

TALKING POINTS

- The one where you're exhausted no matter what you eat.
- The one where you react to everything, even foods you used to tolerate.
- The one where the cravings feel like they have a life of their own.
- The one where everything just sits heavy after meals.
- The one where you're bloated by 2pm no matter what.
- Each pattern has a root cause and a completely different approach.

CALL TO ACTION

Comment QUIZ and I'll send you the free quiz. Two minutes and you'll know which pattern you're dealing with.

CAPTION

*5 gut patterns. Most women have one dominant one and have no idea.
Which one sounds like you? Comment QUIZ and find out.*

VIDEO 3 — The Elimination Diet Video

Avatar: Avatar 2 (Burned-Out Professional), Avatar 4 (Frustrated Dieter)

Pillar: Myth-Busting

HOOK (first 3 seconds)

"If you've done an elimination diet and you're still bloated, I want to explain exactly why."

TALKING POINTS

- Elimination diets identify triggers, they don't fix the barrier that's creating the reaction.
- It's like patching a screen door one hole at a time without asking why the holes keep appearing.
- The foods aren't the problem. The barrier is.
- Removing foods buys relief, it doesn't buy a solution.

CALL TO ACTION

Comment QUIZ below. The quiz will tell you your gut pattern and the results explain the actual root cause, not just what to avoid.

CAPTION

*Cutting gluten didn't fix it. Cutting dairy didn't fix it.
That's not a willpower problem. That's a barrier problem.
Comment QUIZ and I'll send you the free Gut Pattern Quiz.*

VIDEO 4 — The 3pm Crash Video

Avatar: Avatar 1 (Dismissed Patient), Avatar 5 (Health-Conscious Optimizer)

Pillar: Validation + Archetype Tease (Wired-and-Tired)

HOOK (first 3 seconds)

"If you crash every single day around 2 or 3pm and you've blamed it on sleep or caffeine, I want to offer you a different explanation."

TALKING POINTS

- That crash is often a gut pattern, not a sleep problem.
- When the gut's nervous system connection is dysregulated, energy tanks at predictable times.
- The food is fine. The system processing it isn't.
- Cutting caffeine won't fix a gut timing problem.

CALL TO ACTION

Comment QUIZ. If the 3pm crash is yours, the quiz results are going to make a lot of sense.

CAPTION

The 3pm crash isn't about coffee.

Comment QUIZ and I'll send you the free Gut Pattern Quiz.

VIDEO 5 — The 'I've Tried Everything' Video

Avatar: Avatar 4 (Frustrated Dieter), Avatar 3 (Postpartum Rebuilder)

Pillar: Validation

HOOK (first 3 seconds)

"If you've tried probiotics, cut out gluten, gone dairy-free, done the elimination diet, and you still don't feel right, you haven't failed. You've just been solving the wrong problem."

TALKING POINTS

- Every one of those things treats symptoms, not patterns.
- Probiotics without knowing your pattern is like adding plants to a room with no light.
- When you know your gut pattern, you stop guessing and start addressing the actual root cause.
- That's the whole point of the quiz.

CALL TO ACTION

Comment QUIZ below. Two minutes, free, and it'll tell you which pattern you're dealing with so you can stop trying things that were never going to work.

CAPTION

You haven't failed. You've been solving the wrong problem.

VIDEO 6 — The Cravings Video

Avatar: Avatar 4 (Frustrated Dieter), Avatar 2 (Burned-Out Professional)

Pillar: Myth-Busting (Sugar-Driven Archetype)

HOOK (first 3 seconds)

"If you feel like you have zero willpower around sugar and carbs, I need you to hear this. The cravings might not be yours."

TALKING POINTS

- Certain gut patterns create cravings by design, the bacteria feeding on sugar signal the brain to want more.
- It's not a character flaw. It's a gut pattern hijacking your appetite.
- The cravings aren't yours. They're something else's, broadcasting through you.
- White-knuckling it doesn't work because you're fighting the wrong thing.

CALL TO ACTION

Comment QUIZ. If the sugar cravings feel relentless, there's a specific pattern behind it and the quiz will tell you if that's yours.

CAPTION

The cravings aren't a willpower problem.

VIDEO 7 — The Bloating by Afternoon Video

Avatar: Avatar 1 (Dismissed Patient), Avatar 6 (Post-Menopausal)

Pillar: Validation + Archetype Tease

HOOK (first 3 seconds)

"You wake up with a flat stomach and by 2pm you look six months pregnant. I hear this constantly. Here's what's actually happening."

TALKING POINTS

- Two completely different gut patterns cause this and they need completely different approaches.
- One is a location problem (bacteria that migrated somewhere they don't belong).
- One is a speed problem (food isn't moving through fast enough).
- Treating the wrong one makes it worse.

CALL TO ACTION

Comment QUIZ. The quiz takes 2 minutes and figures out which pattern is behind your bloating. The answer changes everything you try next.

CAPTION

There are two completely different reasons this happens. Comment QUIZ and find out which one is yours.
